2. Continue to strengthen our community response for those at risk for suicide, including: crisis response programming, collaborating with law enforcement in the community setting, and providing Applied Suicide Intervention Skills Training (ASIST)	Community members experiencing acute mental health crisis	• Maintain 24/7 access to mental health crisis services • Increased community-based response by mental health clinicians • Offer ASIST trainings 2-4 times per year

Resource Commitment

Providence has committed funding, staffing, and equipment as needed to support the Community Health Improvement Plan.

COMMUNITY NEED ADDRESSED #2: BASIC NEEDS / ECONOMIC SECURITY

Table 2. Strategies and Strategy Measures for Addressing Basic Needs / Economic Security

Strategy	Population Served	Outcome/Measure
1. Provide outreach to populations at higher risk due to social determinants of health through charity care programming, assisting with Medicare/Medicaid applications, and educational programs	Broader Community, Low Income, un/under-insured	Regular outreach efforts to provide education and support
2. Collaborate with community partners to address economic issues such as housing and childcare	Broader Community, Low Income	Continued support and participation in community collaborations such as the Childcare Task Force and local housing initiatives

Resource Commitment

Providence has committed funding, staffing, and equipment as needed to support the Community Health Improvement Plan.
